beautiful

Real beauty comes from within. Rosenalp provides for an interaction of all physical and mental elements which strengthen guests with a healthy way of life.

Being at ease and well being are best friends

On the one hand, Rosenalp's excellent light cuisine or the form of nutrition you choose, the fasting or Schroth cure, will reduce the burden for your body and thus lead to well-being. On the other hand, purifying the body helps to let some mental patterns go and thus actively contributes to passive recovery. Therefore, Rosenalp guests do something good for both their body and mind! The result will be particularly improved by being active. Stress and tensions are reduced by breathing heavy thoughts away. A stay at Rosenalp is also highly suitable to reintegrate exercise and training in everyday life on a regular basis.

Finally return to your true self

With all the deceleration: Moderate physical activity is a real blessing and in the beautiful nature of the Allgäu region it is great pleasure, too. Getting involved with the wonderful natural landscape around Oberstaufen will lead to more energy and balance and will also help you listen to yourself and your own needs again. Moreover, physical activity is fun, keeps you fit, and refreshes both body and mind. They will fuel each other when a healthy mind is in a healthy body. Step by step, breath by breath, you will feel how you finally return to your true self.

Getting spoilt makes problems go away

By letting burdensome pounds and thoughts go, you will break some of your habits. For this purpose, you will adjust your behaviour patterns during your stay at Rosenalp. Enjoy your time in our health resort. With a varied programme, we will contribute to your experiential value!

So many physical and mental affections will make you feel well – visibly and noticeably for a long time. Feel at ease. Feel beautiful.

The Rosenalp sentiment

With our knowledge of more than 50 years, we can support our guests in their search for a new, healthy lifestyle.

SCHROTH CURE & FASTING CURE

It is up to you, whether you decide in favour of the Schroth cure, therapeutic fasting or acid-base balance fasting, hence temporary dietary nutrition, or in favour of a change in diet within the scope of our light kitchen, a tasty, balanced and contemporary half-board. In any case, you will find it easy to relax and let go in our well-being environment and, by doing so, leave some excess pounds here.

NUTRITION

We will show you how to prepare appealing – also dietary – dishes and how to spend your time in a relaxing and pleasant way without a bad conscience or worrying about additional pounds, while being more attentive to yourself and returning home with more self-awareness.

EXERCISE & MENTAL BALANCE

Well-being includes, of course, also our balanced sports and active programme for moderate exercises. A varied guided hiking programme moreover provides for a gentle increase in vitality and encourages pleasant talks and experience exchange with each other.

MEDICAL

The medical team, represented by Dr. Wörner in our own practice and the Klarmann family with their physiotherapeutic team as well as naturopath Ms Schantini, will help you get a grip on your pain and get fit again as fast as possible with accurate diagnoses and treatments. The medical team will also support you with preventive measures.

SPA

The completely renewed spa and beauty area will encourage you to have a temporary time-out. Put yourself in the experienced care of our competent team, enjoy the generosity of the entire area, strengthen your inner balance and let your beauty shine with the help of our therapists.

This is how you will feel when you leave Rosenalp.

Effective cures for your health

Rid yourself of old baggage from an unhealthy lifestyle. Strengthen your immune system and stimulate your metabolism. Find your feel-good weight and do your health good. A cure is ideal to achieve all this. After all, healthy and specific renunciation strengthens your inner healing powers and leads to more energy and vitality. With the Original Oberstaufen Schroth cure, therapeutic fasting and alkaline fasting, Rosenalp provides you with three especially effective cures.

SCHROTH CURE

Being the only Schroth health spa in Germany, Oberstaufen is considered the German Schroth cure centre per se. Rosenalp, a "recognised Schroth cure centre", is among the best addresses for the naturopathic treatment which has been in use for more than 180 years for detoxification and purification. The Schroth cure is based on four pillars: Schroth cure diet, Schroth cure sweating packs to stimulate metabolism, the rhythmic alternation between drinking plenty and drinking little as well as the mixture of rest and activity. The Schroth cure is suitable as preventive measure but can also support recovery in case of existing illnesses. The most important indications for the Schroth cure are, among others: metabolic disorders, rheumatism, high blood pressure, thyroid insufficiency, migraine, and gastrointestinal disorders. The Schroth cure can be especially recommended for diabetics. Medication intake or insulin injections can often be prevented, delayed or reduced significantly.

THERAPEUTIC FASTING

A similarly purifying effect for the body can be reached with therapeutic fasting which is also offered at Rosenalp. By renouncing solid food, you will start a purification process in your body: residue and toxics dissolve and leave the body. You can even get rid of emotional ballast with therapeutic fasting. And, as a side effect, you will shed a few pounds! This is pleasing but only one of the reasons for the increase in your physical well-being due to therapeutic fasting. After all, you will supply your body with less energy, but nevertheless you will have more energy! The fasting cure will make you feel more balanced and more efficient – and you will feel better completely.

ALKALINE FASTING CURE

Alkaline fasting is a type of fasting cure which will make you eat almost only fruit, vegetables, salads, fresh germ buds and some nuts. It is suitable for everyone who wants to do something good for themselves and their health or reduce their weight permanently. Those being healthy can maintain their health – those being ill can regain their health with alkaline fasting. Naturopathy has known for decades that most chronic diseases go along with the body's acidification. If you pay attention to a healthy diet and keep the share of acidic food low, the acid-base balance can be regulated naturally. Deacidify your body thoroughly with alkaline fasting.

TIP

Lectures on nutrition & cure in the meeting room at Rosenalp every Tuesday
10.00 a.m.-11.00 a.m.: General lecture on Schroth cure & fasting cure
11.00 a.m.-12.00 p.m.: Lecture on "acid-base-balance"

Optimum medical support not only is particularly important for detoxification and purification cures but also can increase the cure's success. Dr. Cornelia Wörner, experienced specialist for general & nutrition medicine as well as for diabetology, will accompany you from the very beginning of your stay until the final examination. In addition, our Schroth cure pack experts will provide you with the Original Schroth cure sweating packs to support detoxification. The sweating packs are recommendable not only with the Schroth cure but also with therapeutic fasting.

Relish without remorse

The Rosenalp kitchen conjures refined dishes with high-quality ingredients – mainly from regional suppliers – fresh herbs and much fantasy, making you look forward to healthy food. The meals are so delicious that many guests have a change in thinking and want to cook healthy food in their everyday life in the future as well.

"Healthy nutrition does not mean you cannot enjoy it."

METABOLIC BALANCE

There are many reasons why you should decide in favour of Metabolic Balance® during your stay at Rosenalp in Oberstaufen. Our focus on healthy nutrition, our own nutritionist and our well-equipped health centre allow us to support you during the four Metabolic Balance® phases in the best possible way. You will receive tasty, protein-based, carbohydrate-reduced food 3 times a day and will be delighted at how you can regain fitness and health without foregoing much. We recommend you send your existing nutrition plan before you arrive at the Rosenalp so our kitchen team can prepare in the best possible way.

ROSENALP LIGHT CUISINE

With the carbohydrate-reduced light cuisine at Rosenalp, it is possible to maintain your desired weight and supply the body with all necessary nutrients. We focus on healthy ingredients and gentle preparation. You will be surprised at how much scope the Rosenalp light cuisine allows for healthy relish. Almost everything that tastes good is allowed. Focusing on vegetables, fruit and highprotein food that such as fish, poultry, meat, dairy products, nuts and legumes, makes it possible to conjure a large number of light, easily digestible dishes. In the evening, you should only forego carbohydrates – mainly white bread, sweets, potatoes or noodles. Imagination has hardly any limits.

HALF-BOARD

We recommend half-board if you want to start your day at Rosenalp with a rich breakfast buffet and end it with a delicious 5-course dinner. Starting with our breakfast, we make sure that nothing is left to be desired. The dinner will provide you with one culinary delicacy after another: The team of Chef Helmut Beng will serve you five coordinated courses. With half-board, you can choose between meat, fish or a vegetarian alternative every day.

Exercising refreshes body and mind

Rosenalp provides for many opportunities: Varied programmes which – adjusted to your individual needs – will help you get your body in shape and keep it fit. Small, efficient steps which, after a longer break, will help you stabilise, strengthen, stretch and strain your body. Or pleasant relaxation after days full of stress. Your body's signals will show you the right way towards balance.

ADJUSTED TO YOUR INDIVIDUAL NEEDS

PERSONAL TRAINING

Personal training is an individual training and health programme focusing on your individual aims. This includes the improvement of body shape and weight reduction, relaxation, and an increase of your fitness level. The personal trainer will accompany your training sessions to control and, if required, correct each of your moves. This is how we make you reach your individual fitness targets quickly and efficiently.

INDIVIDUAL TRAINING

Our coach will develop a training routine specifically adjusted to your individual needs for your stay and will also provide advice for further training at home and in everyday life. Joint exercise such as Nordic Walking, Power Plate etc. can be part of this session, too. Which advantages does a personal trainer have? Efficient and target-oriented training under guidance as well as competent advice to increase the quality of your life and your well-being.

ACTIVE & FIT PROGRAMME

Included in the overnight price
 From Monday to Saturday

- Aqua fitness, aqua jogging and aqua aerobics
- Various exercise classes (see weekly programme), e. g.: pilates, fasciae pilates, back balance, yoga, stretch & relax, etc.
- Guided hikes (see weekly programme)

POWER PLATE®

The secret of Power Plate® lies in multi-dimensional vibrations. The different directions of movement reflexively activate muscles and tendons in the human body, thus efficiently training inner muscles which are barely strained with common training.

POWER PLATE – SHAKING UNTIL THE FAT BURNS

10 minutes of Power Plate corresponds to one hour of weight training with machines!

Efficiency by comparison: With conventional training, an amateur sportsperson trains about 40% of their muscle fibres. With Power Plate® training, however, it is 97%. All areas of the body can be efficiently trained in very short training intervals of a maximum of 60 seconds for each exercise. Moreover, Power Plate® is perfectly suitable to massage e.g. problem zones or to relax and stretch muscles. It is the optimum addition for amateur and top athletes, e.g. for golf players. You form your body with Power Plate training. Our coach will support you to achieve a perfect result.

MUSCLE BUILDING

PILATES

A holistic physical training which lifts and forms the body, connecting exercise with strength and awareness, posture with flexibility, tension with relaxation. Supporting breathing techniques provide for smooth movements. Pilates also addresses the deep, smaller and often weaker groups of muscles. A training which will get your silhouette in shape. | 60 min.

FASCIAE PILATES

Fasciae – the connective tissue which gives stability to your body. In addition to healthy nutrition and drinking enough, exercise is important to maintain healthy fasciae as well. Fasciae training makes your back healthy and pain-free. Fasciae pilates provides stimulation which strengthens the connective tissue and dissolves tensions as well as adhesions. | 60 min.

LATIN AEROBIC

Lose weight with hot rhythms and a good mood! "Latin Aerobic" is a combination of Latin-American steps such as Merengue, Mambo or Cha Cha Cha, which will improve your stamina, coordination and mobility. 45 min.

BACK BALANCE

A balanced back means finding our centre and having the right posture. Training muscles equally to prevent disbalances, thus building up a strong back. The spine should be flexible and smooth – this is why mobility is part of this lesson. 60 min.

BODY FORMING BELLY-LEG-BOTTOM

Gymnastic exercises to build up muscles and tighten the connective tissue. 45 min.

BARRÉ CONCEPT AT THE BAR

"Barré Concept" is a demanding training for the entire body with the help of classic workout exercises. In addition to rhythms of modern hits, dumbbells, pilates balls and the ballet bar in our gymnastics room are used. | 60 min.

FLOW MOVEMENT

Flowing movements with soft music (e.g. three-four-time music). The entire body is trained. So are stamina and mobility. 45 min.

RELAXATION

PURE RELAXATION & STRETCHING

Relaxation techniques from autogenic training, progressive muscle relaxation, breathing exercises, imaginary journeys and yoga in combination with "soft stretching". 45–60 min.

BREATHE YOURSELF FREE

Breathing exercises, breathing is life. Breath reflects our physical-mental condition. With controlled and deep breathing, we can relax, purify and harmonise our body. 45–60 min.

STRETCH & RELAX

Shortened muscles and tensions are not only a problem in the old age but are often caused by wrong posture and stress today. Stretching means "expanding and loosening" which is good for the entire body. This lesson particularly focuses on muscles which tend to shorten. 30–45 min.

FROM THE FAR EAST

YOGA

Promotes the strength and mobility of the entire locomotor system. Improves posture and promotes the building and strengthening of the back muscles. Keeps the connective tissue firm. Strengthens the psyche and can counteract consequences of stress. The blood pressure returns to normal.

Yoga dissolves tensions and blockades, counteracts nervousness, makes stress reduction easier and counteracts sleep problems. The entire body awareness improves. Breathing exercises and relaxation techniques increase concentration and lead to balance and inner peace. 60–90 min.

body and
mind*

Mental Balance

Gratitude and attentive compassion for yourself are healing and give you inner peace. Gratitude comes as soon as we are attentive and consciously take note of all the beautiful things in life.

"At Rosenalp, we have a varied offer of relaxation techniques. Find yourself again and sensitise your body awareness."

Petra Schantini
Naturopath

BREATHING THERAPY

Leads you to conscious body awareness.

MARMA CHIKITSA

This treatment intensifies and sensitises your awareness, helps to let entrenched patterns of experience go and process painful memories.

MEDITATION

Relax, rest, feel and free your mind. Charge your batteries.

PROGRESSIVE MUSCLE RELAXATION AFTER JACOBSEN

Relaxation through tensing and relaxing all muscles in the body.

Single session 60 min. EUR 85

"In order to avoid disbalances in weight training it is important to carry out the exercises correctly. I'll be happy to advise you!"

Physiotherapeutic Practice Stefan & Moritz Klarmann

Professional care by the physiotherapeutic team at Rosenalp is the ideal prerequisite for your way towards new vitality. Both classic and modern therapies will help you achieve the best possible result. Generous therapy rooms and a pleasant atmosphere will also contribute to your well-being.

PHYSICAL CHECK-UP WITH INITIAL TREATMENT

Our entire competence will be applied to the physical check-up. Following a comprehensive medical history, we will use our own results system which consists of various methods. First comes the analysis, then follows our therapy recommendation, and last, but not least, individual initial treatment.

about 50 min. EUR 85 *

PHYSIOTHERAPY

Our aim is to reduce your pain and improve the functionality of your locomotor system with manual mobilisation and other treatment methods. Put yourself in the care of our physiotherapists who will choose the best for you from their extensive options: manual therapy, medical gymnastics, massage, lymphatic drainage, electro- and ultrasound therapy.

about 50 min. EUR 80 *

MANUAL THERAPY

The manual therapy is an ergo-therapeutic method which aims to find and treat malfunctions on the spine and joints. Special movements are used for mobilisation and pain relief in case of restricted mobility.

about 25 min. EUR 40 *

SOFT MANUAL SPINE THERAPY

Like the spine therapy after Dorn, this therapy is based on Chinese acupuncture and meridian theory. The therapy is a comprehensive, efficient method to find and correct dislocated joints, particularly spinal column joints. The aim is to heal illness and relieve pain directly or indirectly linked with the spine. Working on the spine often has a positive impact on the functionality of the associated organs. We use this therapy in case of joint blockades but also in case of problems or impairments regarding the stomach, heart or respiratory tract as well as in case of migraine or tinnitus.

about 40 min. EUR 59 *

MEDICAL GYMNASTICS

Treatment of impaired and/or painful motions with specific active or passive therapies as well as with gymnastic instructions for self-help.

about 25 min. EUR 38 *

MACHINE-SUPPORTED MEDICAL GYMNASTICS

Machine-supported medical gymnastics is an essential part of rehabilitation following joint injuries, fractures and surgery. The physiotherapist will train motor control and stability as specifically and individually as strength and stamina. According to the respective syndrome and results, each patient will receive their individual training schedule.

about 45 min. EUR 55 *

PHYSIOTHERAPEUTIC MASSAGES

CLASSIC MASSAGES

The classic massage aims to manually influence muscles, skin and connective tissue based on stretch, tensile and pressure stimuli. The massage's effect ranges from the treated body part to the entire organism, including the psyche.

BACK MASSAGE
about 25 min. EUR 35 *
FULL BODY MASSAGE
about 50 min. EUR 70 *

HEAD-NECK SPECIAL TREATMENT

Treatment of head, neck and shoulders. Has a relaxing, pain-relieving, mobilising and stabilising effect. We will combine various techniques individually adapted to you. We recommend this treatment in case of headache, migraine or the so-called "stiff neck".

about 50 min. EUR 74 *

MANUAL LYMPHATIC DRAINAGE

Perfectly suited for removing congested lymph. The lymphatic drainage has a purifying effect, thus strengthening your immune system. The relaxing treatment will sustainably support the effect of the Schroth cure.

FACIAL TREATMENT
about 25 min. EUR 30 *
EXTENSIVE TREATMENT
about 25 min. EUR 37 *
FULL BODY TREATMENT
about 50 min. EUR 70 *

ROSENALP FIT MASSAGE

The brilliant combination of various therapies. Soft manual spine therapy, classic massage and then intense heat with a natural moor pack. Optimises the success of treatment – mobilising, reducing tensions, pain-relieving.

about 70 min. EUR 95 *

"We do not treat the symptom – but the reason."

Moritz und Stefan Klarmann
Physiotherapists and
Manual Therapists

* Prices are valid for treatments prescribed by a physician or alternative practitioner. For treatments without prescription, a surcharge of 19% is to be paid.

ALTERNATIVE TREATMENT METHODS

BIODYNAMIC MANUAL THERAPY

A treatment method combining traditional manual therapy and osteopathy. Since the focus is on the holism of the human being we make an impact on the nervous, organ and myofascial systems. Based on the perception that body, mind and soul have a mutual influence on each other, we would like to raise patients' awareness for the fact that their thoughts, emotions, attitudes, and actions have a direct effect on fascial tissue.

about 50 min. EUR 98 *

CRANIOSACRAL THERAPIE

The cranio-sacral therapy aims to check and treat muscle fasciae, bone and organ-ic systems. This therapy will bring fascial and connective tissue tensions into balance, thus relieving tension in the rhythmically pulsating system between cranium and sacrum, and finally also improving the cranio-sacral rhythm. We thus use this therapy to treat physical malfunctions, diseases and mental problems.

about 50 min. EUR 85 *

ACUPUNCTURE MASSAGE AFTER PENZEL

Treatment of the unbalanced energy cycle based on Chinese energy doctrine. The APM treatment influences not only the symptoms but also the entire organism. The therapy also includes the treatment of interference fields (e.g. scars).

about 50 min. EUR 75 *

COLON HYDRO THERAPY

A naturopathic method to purify the colon intensely. An inner Kneipp cure for the bowels, so to say. Toxic agents and waste products are removed from your body and as a result, the intestine will be stimulated, and your immune system will be strengthened. Supporting method for Schroth and fasting cures.

about 50 min. EUR 90 *

SEGMENTAL REFLEX MASSAGE ON THE FOOT

Each organ and tissue in our body has a reflectively connected segment on our feet. In case of problems, those segments will react very sensitively to pressure. The segmental reflex massage improves circulation, activates resistance, and improves the tissue's ability to regenerate.

about 30 min. EUR 39 *

MATRIX-RHYTHMUS THERAPIE

Our body cells swing rhythmically – as long as they are healthy. If this no longer works, the matrix – i.e. the cell environment – will face a slow-down and congestion. As a result, the concerned parts of the body will not be supplied sufficiently on the one hand; and on the other hand, toxic agents can no longer be removed. First, this will lead to slight irritations hardly registered by the patient. Soon, however, it will lead to serious – and mainly painful – problems which, step by step, might have an impact on the entire muscle, bone, cartilage, vascular and nerve tissues. The matrix rhythm therapy counteracts this process. We will be glad to give individual advise.

about 25 min. EUR 50 *

about 50 min. EUR 100 *

THERMAL TREATMENTS

NATURAL MOOR PACK

The pleasant heat of the natural moor pack will slowly spread across your body. As circulation increases, muscle relaxation will be promoted, too.

about 20 min. EUR 20 *

INFRARED LIGHT IRRADIATION

Heat radiating light stimulates your metabolism and circulation. The treatment has a relaxing and pain-relieving effect.

about 15 min. EUR 10 *

ELECTRO THERAPY

Electro therapy is the medical application of electric power. Depending on the respective problem, the physiotherapist applies different forms of electric power to one or more parts of the body. The electric power's impact is varied: stimulation of circulation, muscle activity and metabolic processes as well as pain relief.

about 15 min. EUR 12 *

ULTRASOUND THERAPY

In a broader sense, the ultrasound therapy belongs to electro therapy. Electric power is converted into high-frequency sound waves. Known effects include improved cell metabolism and increased circulation in deep tissue. Moreover, the pain threshold can be raised. Therefore, injuries in muscle and tendon tissues can heal faster; spine and joint-related problems can be relieved.

about 15 min. EUR 15 *

** Prices are valid for treatments prescribed by a physician or alternative practitioner. For treatments without prescription, a surcharge of 19% is to be paid.*

My place to be well

Holistic rehabilitation concepts and a holiday feeling

Become fit again as fast as possible after orthopaedic surgery. Get a grip on pain. And, preferably, bring mobility to a normal level. These targets can be reached best with rehabilitation. Rosenalp is an excellent address for private rehabilitation. On the one hand, the spoiling ambience guarantees a holiday atmosphere which accompanying partners or family members can enjoy as well. On the other hand, and primarily, the holistic concept of Rosenalp stands for comprehensive and excellent competence when it comes to health – not only in the therapeutic and medical fields.

Practice Dr. Wörner

Health means so much more than just "not being ill". We provide you with a comprehensive check-up programme and therapy concept to detect and treat health-related risks in time.

MEDICAL HEALTH CHECK-UP

METABOLIC CHECK-UP

Metabolic disorders slowly but constantly damage organs and often lead to serious illness like diabetes, gout or rheumatism. It is necessary to recognise such disorders in time to prevent irreversible damage.

HEART CHECK-UP

Cardiovascular diseases are the number 1 cause of death in Central Europe. Controlling the risk factors for coronary vessel diseases and checking your heart function can save you. Protect your heart and yourself.

LUNG CHECK-UP

Toxic agents like waste gas, cigarette smoke and fine dust put a strain on our respiratory system. The results are bronchitis, asthma and lung cancer. Special check-ups of lung function and blood can detect the smallest changes indicating potential illness.

PRECAUTIONARY CHECK-UP

Serious illnesses do not involve problems at the beginning. The sooner they are detected, however, the better is the chance to survive. Our precautionary check-up will help you.

DIAGNOSTIC PROFILE

- ECG and ECG stress test
- Lung function test
- Long-term ECG
- Long-term blood pressure reading
- Vascular diagnostics with colour Doppler

OXYGEN-OZONE THERAPY

Make use of the extensive autohemotherapy completed by vitamins and trace elements to activate your immune system, support and optimise your Schroth metabolic cure, increase your physical performance, stimulate your circulation and achieve inurement.

AESTHETIC MEDICAL TREATMENTS

- Botox therapy
- Anti-wrinkle injection
- Lip modelling
- Thread lift

SPECIAL PROGRAMME FOR DIABETICS

Diabetes mellitus is the most common metabolic disease in Germany. 8 million German citizens are suffering from it, but many do not know it. If not detected or treated badly, diabetes will definitely lead to damages of your vascular system with results such as heart attack, circulatory problems, kidney disease, loss of eye sight and much more. Our treatment and care programme can protect you.

Naturopathy Practice

Petra Schantini

Being a naturopath, I focus on human beings in their holistic nature. My priority is to rebalance the unity of "body – mind – soul". Everyone is unique. I will see and embrace you as a unique human being and will accompany you on your way to health with therapeutic measures.

MY MOTIVATION

I want to support people with health problems and I am grateful for being able to accompany you. With various therapeutic approaches, I will provide your body with the opportunity to awaken its own healing powers.

ABOUT ME

Following commercial education, I soon realised that I would like to work with people. In 1989, I completed my training as cosmetics specialist. Then I worked in various institutions until I became self-employed as cosmetics specialist in 1996. During my work I often had clients who had health problems and as a result, I found out I wanted to become a naturopath. I started my training as naturopath in 2002 and after completion I added a naturopathy practice to my studio.

OVERVIEW OF TREATMENTS

AROMATIC THERAPY

Essential oils have a positive impact on the skin, the body, the mind and the psyche.

BACH FLOWERS THERAPY

Heal yourself with Bach flowers.

COLON THERAPY / COLONIC IRRIGATION

The intestine is the source of well-being. Look after your intestine, treat and heal it – there is much you can do for your body's core.

DEACIDIFICATION / DETOXIFICATION "Find your own strength"

The main problem of today's prosperity nutrition – and thus the reason for many diseases – is that we eat and mix too much. The results are waste agents, mucilage and acidification in our body. Deacidification and detoxification aim to purify the body.

NUTRITION COUNSELLING

The results of malnutrition are noticeable for everyone and impair well-being.

FEMALE HEALTH

Harmony for soul and body. Support during all three stages of a woman's life:

- first stage of life birth to puberty
- second stage of life fertile years
- third stage of life menopause

HOMOEOPATHY

The "soft" medicine. Treat like alike. Homeopathy is the holistic treatment of body, mind and soul.

ENERGY PSYCHOLOGY / KINESIOLOGY

Psycho-Kinesiology is used in case of psychosomatic problems and is an efficient therapy for:

- Phobias/fears
- Panic disorders
- Addiction therapy
- Compulsions
- Anger/aggravation
- Traumas
- Post traumatic stress disorder
- Depressions
- Feelings of guilt
- Anticipatory anxiety
- Stress reduction
- Stress management
- Performance increase
- Age regression

EAR ACUPUNCTURE

The human being consists of three systems: "body, energetics, soul".

Every disease concerns all systems. Ear acupuncture is used in pain therapy, addiction therapy, in case of allergies, and much more.

SCHÜSSLER SALT THERAPY

"Salts of life" Impaired functions of the body are returned to balance.

SMS LUMBAR STABILISATION OF THE SPINE

mobilisation of the spine and the locomotor system. This method can heal spinal disorders but mainly prevents them through sufficient regeneration.

Please book your appointment at the reception or directly with Ms Schantini during the "free consultation hours" (in the meeting room on Tuesday 12.00 p.m. – 1.00 p.m.).

"It's easy to get thousands of recipes but difficult to attain real healing. The reason is that problems are often healed where they emerge, and not where they originate."

SPA

We are looking forward to you

Rosenalp-Spa Team

We, the team of the Rosenalp spa, are very happy to accompany you on your way towards more well-being. Forget your everyday life during your spa journey and have time for yourself. Immerse into the exclusive atmosphere of the Rosenalp spa and let yourself be spoiled with, for instance, a wonderful well-being treatment at the highest level, gaining new energy. Breathe deeply, slow down, succumb to a new awareness of life. We will be happy if you place your trust in us and enjoy the tranquillity and relaxation at Rosenalp spa, so you can feel at ease and beautiful soon. Get inspired by our authentic spa offer.

The power of tranquillity and relaxation

When everyday life seems to crush you, your timetable rules your day and obligations become prevalent, it is about time to enjoy a time-out: Free your mind and allow relaxation. Let tranquillity return, step by step and deliberately. Listen to your inner voice which always knows exactly what is good for you and take all the time in the world to enjoy the spoiling programme for body, mind and soul. At least during the time-out you enjoy at Rosenalp.

ON A TOTAL AREA OF 2,000 M², OUR ROSENALP SPA HAS

- Bio sauna, Finnish sauna, infrared sauna, steam bath
- Plunge pool, ice fountain, sauna footbaths
- 25 m x 7 m pool: 110 m² pool connected with an all-the-year heated outdoor pool of 65 m² and bubble loungers
- Kneipp area for Kneipp foot baths and arm baths
- Light therapy with UV light and collagen light – more than just a tan
- Gallery and retreats
- Waterbeds
- Relaxation rooms/area

TIP

Light therapy at the highest level – anti-aging & tanning

The new light therapy at the Rosenalp spa is more than just a solarium. The near-infrared encourages the skin's cells to form collagen, hyaluronan and elastin, thus having an anti-aging effect. Wrinkles are reduced, the skin gets firmer and aging spots fade. Moreover, the light therapy improves the mood and relaxes muscles – and as a side effect, it leads to a natural tan and velvet skin.

Have a go!

We recommend 3-4 treatments a week. The token coins (12 minutes for EUR 15 each) are available at the spa reception as well as at the hotel reception.

Rosenalp Signature Treatments

Treat yourself to the luxury of an exclusive well-being treatment at the Rosenalp spa. We leave nothing to chance with our all-round spoiling packages. After all, only if the total package is good, you will be able to let go completely. And only if you can factor out everyday life, you will relax appropriately and let yourself being led by your senses. With the pleasant atmosphere in our spa, the first-class products we work with and our excellent team, we make sure that you will be successful in doing so.

BODY

ROSENALP SIGNATUR WRAP
The thermo-active body treatments start
with a sisal body massage. Bandages sat-
urated with effective natural substances,
caffeine and alkaline salts are wrapped
tightly around the problem zones stom-
ach, legs, bottom and upper arms. After 30
minutes of reaction time, a strong thermic
superficial stimulus develops. Your body
will counteract this stimulus and will at-
tack its "fat reserves". Pure power.

EXPERIENCE MASSAGES

HERBAL STAMP MASSAGE "PANTAI LUAR" – FULL BODY

A vitalising hot oil massage (120 °C) for the entire body with herb-fruit stamps. Muscle tensions and hardening are removed; cell activation and cell regeneration are stimulated. The herb mixtures have a detoxifying and purifying effect.
60 min. EUR 91 | 30 min. EUR 46

VOLCANIC STONE MASSAGE „HOT STONE“

The massage stimulates metabolism and aims at deep relaxation with changing stimuli by hot and cold volcanic stones. A massage ritual for body, mind and soul which removes blockades in the entire body and leads to an incomparable feeling of tranquillity and security.
90 min. EUR 132

ENERGY MASSAGE WITH MOOR STAMP

The heat of the permanently vaporised moor stamp loosens and relaxes muscles in the back and legs and builds them up for new activities.
30 min. EUR 48

MOUNTAIN SALT STAMP MASSAGE

This salt stamp massage has a strongly detoxifying and purifying effect. Based on the high share in mountain salt, the massage supports skin problems such as neurodermitis, psoriasis, dry skin ... and is absolutely relaxing!
60 min. EUR 91

SINGING BOWL MASSAGE

Deep relaxation with a special sound vibration which makes our cells resonate and removes blockades from the deep cell consciousness. In the holistic sense, the singing bowl massage has a regenerating and vitalising effect on body, mind and soul. Also improves body awareness and positively influences self-confidence, creativity and creative power.

MEDICAL BEAUTY

AQUA DERMABRASION

The innovative combination of a particularly gentle wet dermabrasion, followed by a lymph, vacuum and pulsation massage and, finally, a mesotherapy leads to sensational results with an immediately visible improvement of 25 % in the skin structure.

60 min. EUR 139

ULTRASOUND

With the latest ultrasound technology, skin-specifically pure active substances are infiltrated deeply into the skin – pure hydration!

30 min. EUR 52

MEDCONTOUR & MEDIDRAINAGE

Everyone has their small private "problem zones". With MedContour, however, it does not have to be this way. The patented method reduces your girth carefully and specifically. Without surgery – with gentle vacuum and ultrasound only! A lymphatic drainage removes liquid from the body and completes the treatment. The result: a well-shaped, tighter and leaner silhouette.

90 min. EUR 185

3x MedContour & MediDrainage EUR 525

NEW: TREATMENT WITH RADIO FREQUENCY AND ULTRASOUND

A safe and efficient method for firmer skin without surgical intervention – also for small problem zones such as knees or upper arms. The combination of the ultrasound waves' mechanical effect and the high-frequency energy allows for treating previously treatment-resistant tissue. To rejuvenate the skin and to improve the skin's elasticity, structure and cellulite.

AYURVEDA

Dive in the fascinating world of this old Indian form of healing. Flowing and stroking movements make an Ayurveda massage a very special experience. Covered in warm oil and spoiled by the soft touch, your body, mind and soul will start travelling. Suddenly, it will be easy to let go. Also, your metabolism and purification will be stimulated, and your energy will flow again.

ABHYANGA

Probably the most popular form of Ayurvedic massage. A unique sensual journey to your inner being. Let it go and put yourself in our hands. Warm oil will surround your body and the soft touch will make new energy flow. The massage ceremony will end with a pleasant herbal steam bath.

90 min. EUR 125

SHIROABHYANGA

Relaxing head, neck and shoulder massage to remove basic tensions and slightly reduce the burden on your shoulders. The ideal way to discover Ayurvedic treatment and get a first experience of the excellent effects.

60 min. EUR 99

PADABHYANGA

Harmonising foot and leg massage, particularly suitable in case of nervousness and disturbed sleep. Complete with a warm foot bath and an additional salt-oil scrub. Feel the firmness of the ground under your feet and how Mother Nature gives you strength and new stability.

60 min. EUR 99

GARSHAN

Full body massage with raw silk gloves; activates your metabolism and stimulates circulation. The effect is increased with a purifying scrub and, finally, a steam bath.

60 min. EUR 108

The pure power of nature

Treat yourself to the unique spoiling experience which draws its beauty secret from the power of nature. The 100 % pure, natural essential oils, which form the essence of a Decléor treatment, promise immersion into the world of senses: Well-adjusted aromatic essences are absorbed via skin and the sense of smell and will convey the feeling of being embedded in a cocoon of fragrances. At the same time, the valuable essential oils unfold their effect on the organism – and will be calming, relaxing, inspiring or stimulating, according to your wishes.

Good to know

SPA-RECEPTION

Our spa team is looking forward to advising you individually to book a spa treatment or a package tailored to your needs. In addition, the team at the spa reception will inform you about our products and token coins for the light therapy.

APPOINTMENTS

Our treatments are very popular because we put an emphasis on professional treatments & rituals. We recommend booking your desired spa treatments prior to arrival so you have a relaxed stay from the very beginning. You will receive your schedule from the hotel reception staff upon your arrival. You can contact the Rosenalp spa team on the phone +49 8386/706-447 or via e-mail spa@rosenalp.de. Treatments bookable on short notice will be shown on our screen at the Spa-Reception and can be booked there directly.

POSTPONEMENT / CANCELLATION

We would like to ask you to postpone appointments early, at least one day prior to the planned spa treatment. Please understand that we have to charge you with 100 % of the treatment price if you miss an appointment. Same terms apply to cancellation or postponement on the day of the treatment. Treatments, which are included in a package or prescription, expire.

WE CARE ABOUT YOU

Please tell us known intolerances, diseases and allergies ahead of each treatment so we can adjust the treatment exactly to your needs. We recommend our Schroth cure and fasting cure guests to use the bio sauna instead of the Finnish sauna since temperatures of more than 70 °C could overstrain the circulation which might already be weak because of the fasting cure. Please pay attention to possible warning signals in any case: In case of nausea or dizziness, please leave the sauna immediately.

BODY TREATMENTS

For body treatments, please wear your bathrobe and underwear or swimwear underneath as well as bathing shoes. Our body therapists are instructed to cover you accordingly during the treatments. Please note that some treatments involve a resting period afterwards. In single cases, the combination of treatment and sauna/steam bath might increase or reduce the results of the treatment. Our therapists will be glad to inform you correspondingly.

COSMETIC TREATMENTS

We recommend foregoing light therapy immediately after cosmetic treatments. We would like to ask men to shave a few hours before the facial treatment so that the treatment result is as good as possible.

If you are booking a manicure or pedicure, please let us know if you have gel, acrylic or gel polished nails.

MOBILE PHONES

The entire Rosenalp spa is a mobile phone-free zone to guarantee relaxation and out of respect for other guests. We would like to ask you to leave your mobile phone in your room or switch it off during your stay at the spa.

TAKE YOUR TIME

We recommend arriving at the Rosenalp spa 10 minutes before the treatment starts so you can enjoy your treatment fully. Get in the right mood for your treatment with a glass of ginger-lemon water or a cup of tea in the wellness lounge. A member of the spa team will welcome you for your subsequent treatment. Out of respect for other guests, please note that the length of your treatment will be reduced if you are late.

HYGIENE AT THE SPA

Please make sure to shower before using the outdoor pool, indoor pool, saunas or steam bath. Please pay attention to information on nude bathing areas and those where swimwear is required.

DAY SPA for

1-day guests

DAILY OPENING HOURS OF THE ROSENALP SPA

8.00 a.m.–8.00 p.m.: Pool & light therapy

Give happiness!
With our Rosenalp Spa vouchers, you will give a spoiling programme for body, mind and soul.

GENERAL INFORMATION

Please note that treatments as well as lunch and dinner are not included in our Day Spa package and will be charged separately. Also, please bear in mind to wear comfortable clothes if you would like to eat in our restaurant (access in bathrobe is not possible).

SPOILING PROGRAMME FOR ONE DAY

Even without booking an overnight stay, you can let yourself get spoiled at the Rosenalp Spa. The sauna area with Finnish sauna, bio sauna, steam bath, infrared sauna, plunge pool and ice fountain as well as the indoor pool, the heated outdoor pool and the relaxation rooms will be available to you as Day Spa guest. Forget your everyday life for a few hours. Enjoy precious moments and recharge your batteries during that time – alone or with someone you care about dearly.

Your feel-good day includes:

- Breakfast from our rich breakfast buffet until 10.30 a.m.
- Use of the Rosenalp Spa with sauna area and pools
- We will provide you with bathrobe, towels and disposable bathing shoes during your stay
- A selection of tea varieties as well as lemon-ginger-water in our wellness lounge

Price per person EUR 59

FEEL LIKE A FEW SPOILING EXTRAS?

If you feel like capping your feel-good day in the Day Spa off, we recommend a marvellous feel-good treatment. A beauty treatment, ayurveda or wellness – we will be happy to advise you on the ideal treatment for you.

And what would a perfect day be like without the perfect end?

With a dinner in the restaurant at Hotel Rosenalp, for instance? We will be happy to reserve a table for you!
